

**M**  **LOAD**

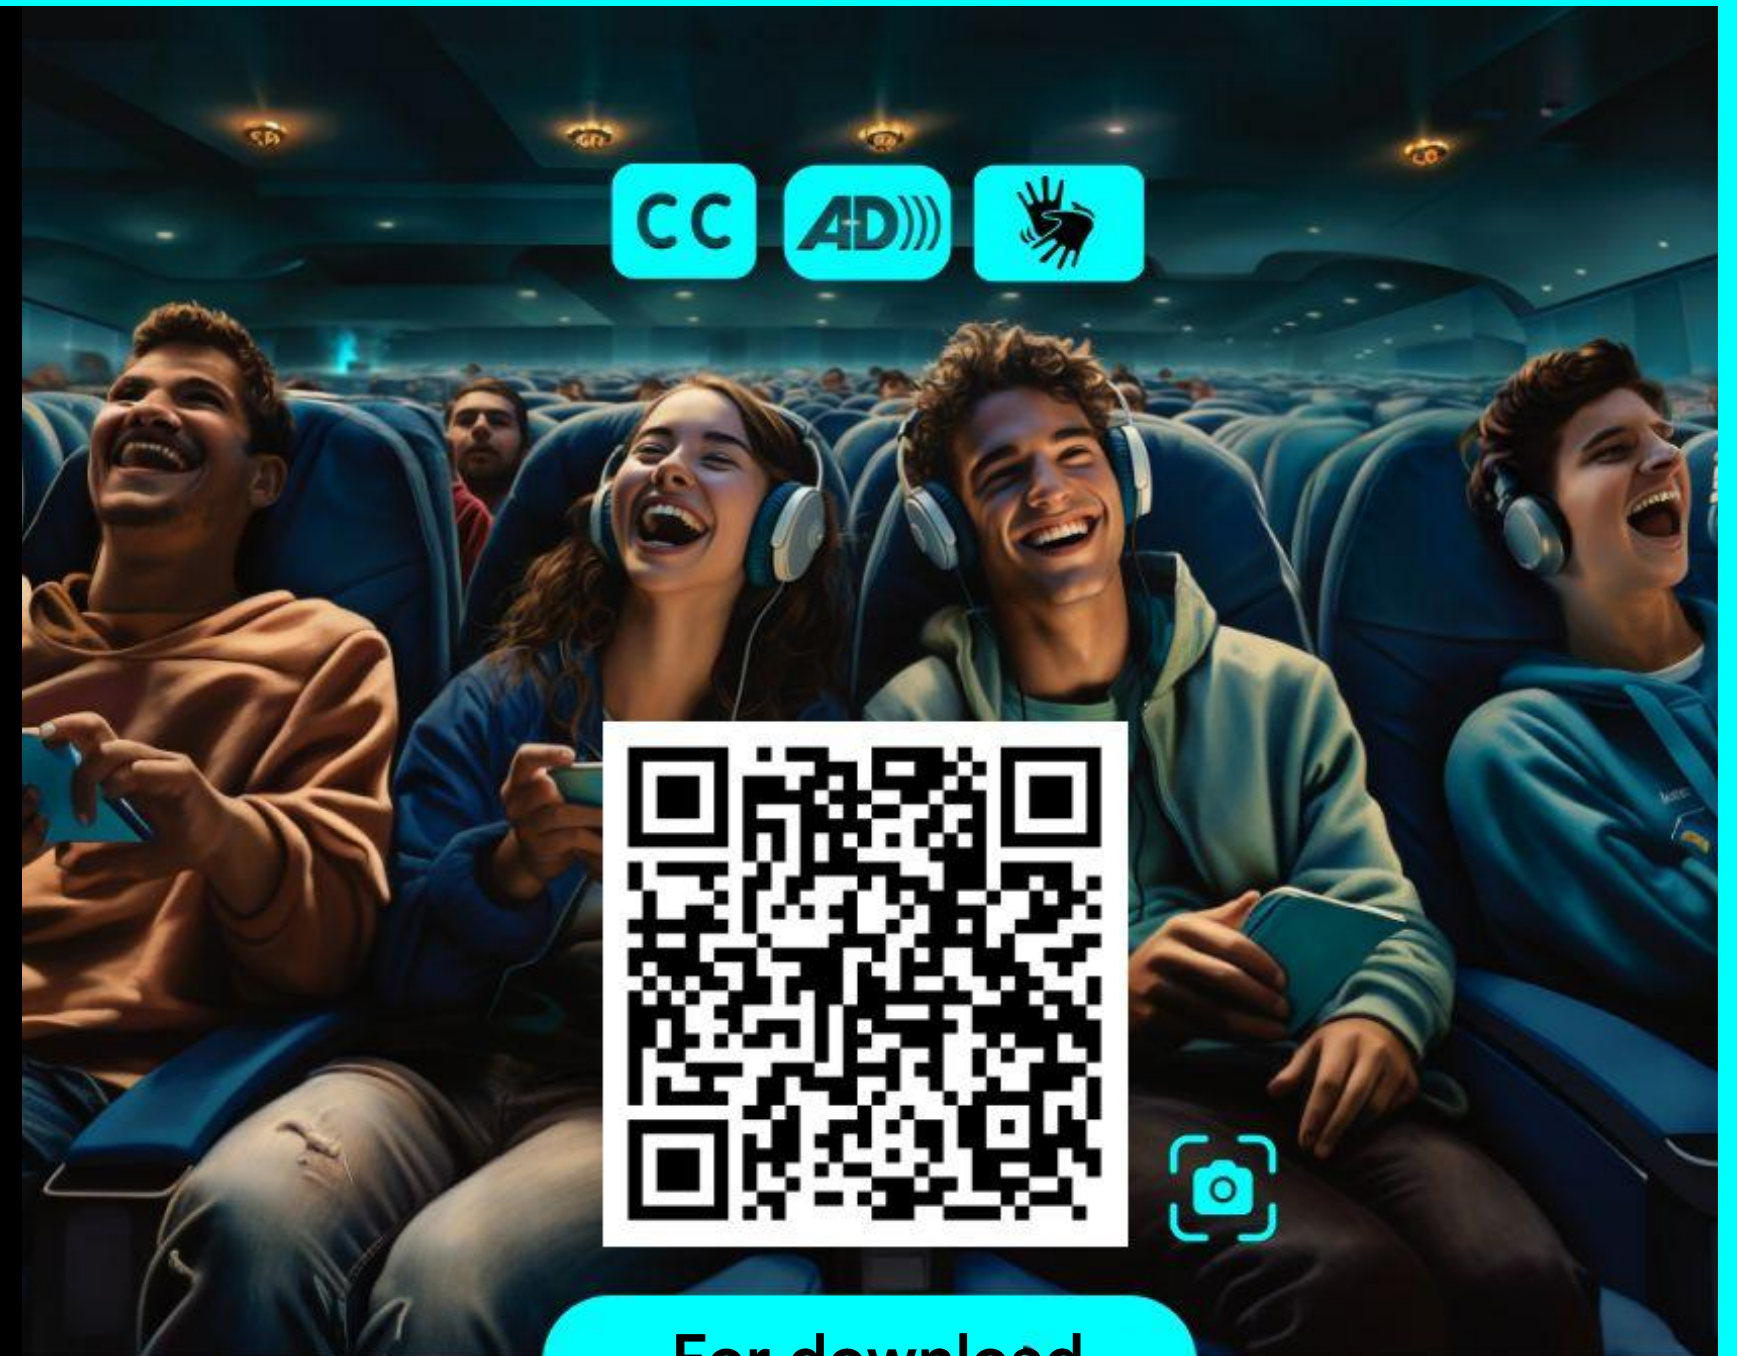

by **MAV** 

MLOAD is a free app that provides accessibility features for watching movies in theaters and is available for download on App Store and Google Play.

Simply search for MLOAD or scan the QR code to get started.

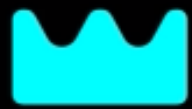

Enjoy the movie!

*Tip: We recommend downloading the app and selecting your preferred accessibility features before heading to the theater.*

# How to Watch a Movie with Accessibility Features

1. After downloading the app, click "Open" and follow the step-by-step instructions to access the movie and the available accessibility features;
2. Choose your movie and the accessibility feature you want to use, then download it;
3. At the theater, with the resource already downloaded, simply go to the **catalog** and click to sync when the movie starts.

*The file is deleted from the device 6 hours after playback or 24 hours after download; however, it can be downloaded again.*

**Enjoy the movie!**

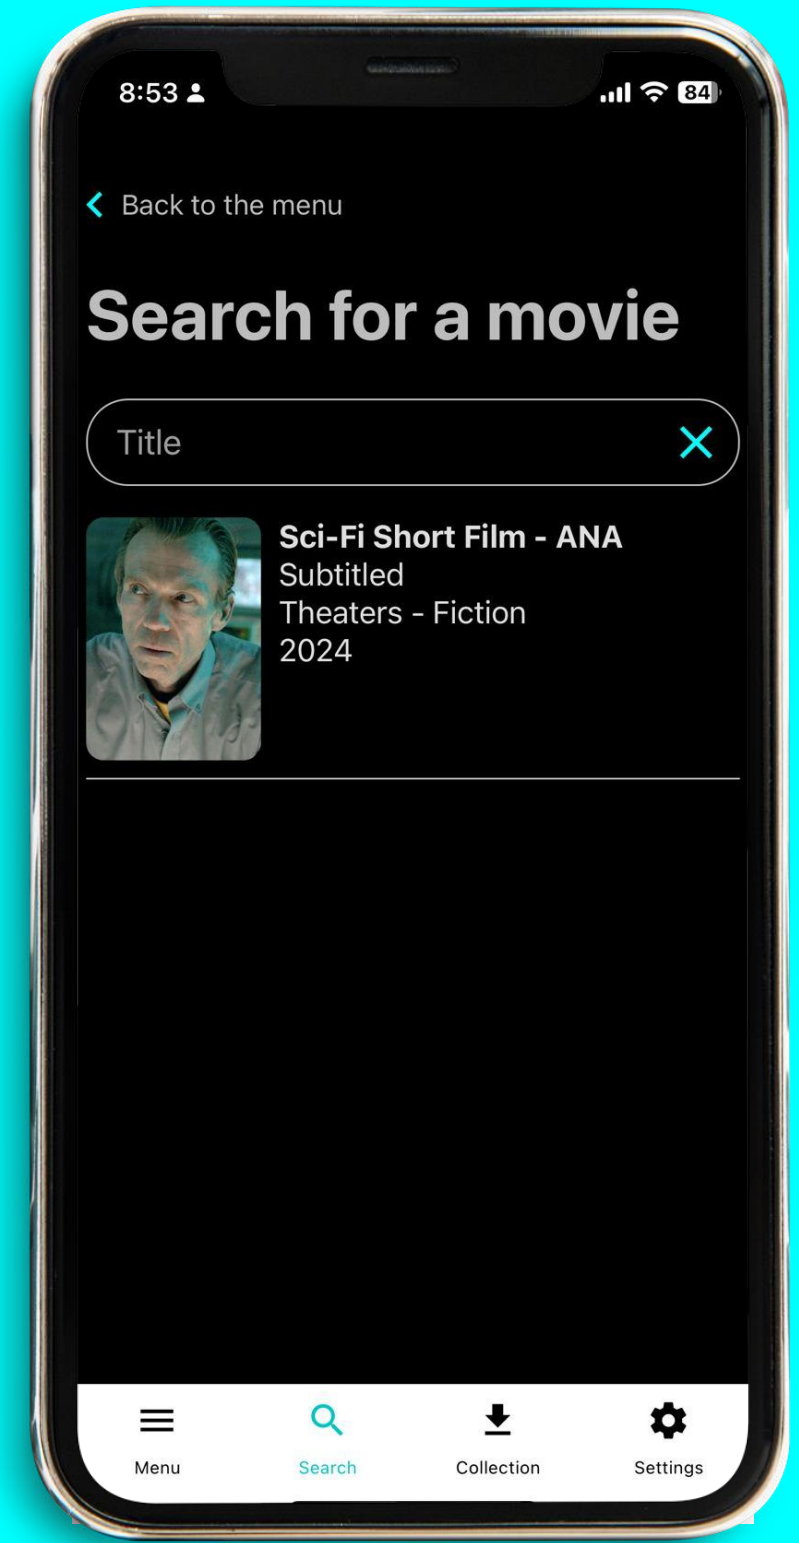

# Sample Content

Want to try out MLoad? It's easy!

1. Open the MLoad;
2. Choose a movie “Sci-Fi Shot Filme — ANA” from the app;
3. Select your preferred accessibility features\*;
4. Access the movie on YouTube by clicking the link below:  
<https://youtu.be/mWLqt4nSRpk>
5. Go to the catalog in the app;
6. Play the movie and sync the app.

\*For this sample, the available accessibility options are Closed Caption and Audio Description.

We're committed to making your movie experience as accessible as possible.
